RE: Mayfield Thermography Consulting Services, Inc.

To Whom It May Concern:

Please accept this letter as a great recommendation for Mayfield Thermography Consulting Services, Inc. Tom Mayfield was a pleasure to work with. He patiently explained all areas of the services he provided. I was kept updated on the status of the inspections without having to contact him first, which is a rare occurrence with many contractors I deal with. After the completion of the project, Tom followed up to make sure I was happy with his services and that the acquisition of the building went smoothly which is an even rarer occurrence with contractors! The reports on the inspections were verbally communicated to me, as well as delivered timely and in a very professional package.

Mayfield Thermography Consulting Services, Inc. is efficient, professional and fair. They were in constant communication with me throughout the acquisition of our project and I look forward to dealing with them on future deals.

Respectfully,

Lauren Marie Mesa
